STORY

Under the command of Albert Wesker, the player assumes the role of a soldier tasked with a covert mission to infiltrate an abandoned castle occupied by hostile forces. Situated in a remote region of Europe, the castle presents a difficult environment with its fortified defenses and strategically placed traps.

At the start of the mission, the player observes the castle from a mountain slope, its imposing structure looming in the distance. By passing a main road guarded by resting enemies, the player may choose between entering through a broken section of the main gate or using a ladder concealed by fallen trees to access a side entrance leading to the castle's front courtyard. The player must eliminate patrolling enemies to ensure safe access to the castle's interior.

Once inside the dark, crumbling castle, the player faces waves of enemies amidst an eerie atmosphere. The dim torchlight flickers across the stone corridors, casting elongated shadows and creating an ominous environment. Despite the linear design of the level, the player must remain vigilant as enemy ambushes and strategic combat scenarios escalate. Progression through the castle requires careful navigation of its treacherous terrain and methodical elimination of adversaries guarding key locations, such as staircases and narrow hallways.

Eventually, the player reaches the second-floor observation deck, where they must descend into a labyrinthine garden repurposed into an intricate combat area. After surviving the garden's challenges, the player arrives at the final objective grand cathedral. Here, a climactic battle unfolds, requiring the player to defeat formidable enemies to secure a key mission item.

With the objective complete, the player exits through the cathedral's rear graveyard, successfully concluding a mission integral to Wesker's larger plans. Failure is not an option; the player's dedication to the mission underscores the stakes and urgency of their role in Wesker's operation.

PROGRAM

Narrative Program

Narrative Program

- **Section 1: Ruined Landfield (Outside the Castle)**
 - Landmarks:
 - A ruined outpost in the middle, with castle debris and an abandoned guard station.
 - A wide main road on the right, featuring multiple resting enemies, supply crates, a shotgun, and truck cargo.
 - A narrow path on the left, obstructed by climbable obstacles or crouchable barriers, leading to a small enemy-guarded storage area with supplies.
- **Regions:**
 - Middle Section: Clear debris or minor enemy resistance to proceed toward the main gate.
 - Right Path (Main Road): Engage resting enemies in combat to gather significant supplies.
 - Left Path (Narrow Trail): A stealth-friendly route with minimal resistance, leading to a hidden resource stash.
- **Nodes:**
 - Castle Entrance: Players can either climb through the broken gate to the courtyard or use a hidden ladder on the left side, obscured by trees, to access the second-floor entrance.
- **Paths:**
 - Main Path: A direct route through the middle section and into the main gate.
 - Branching Paths:
 - Right Path: A combat-heavy route with high rewards.
 - Left Path: A stealthy, obstacle-based path with guarded resources.
- **Edges:**
 - Natural cliffs and dense fog block the outer perimeter of the landfield, funneling players toward the castle.
- **Section 2: Inside the Castle**
 - Landmarks:
 - A wide courtyard with a broken fountain in the center.
 - Surrounding structures: remnants of horse stables and carriage sheds along the courtyard perimeter.
 - A simple stone wall pathway accessible from the ladder route, leading to a second-floor observation deck with a sniper rifle.
- **Regions:**
 - Castle Courtyard: Combats occur in the open space, with enemy patrols and defensive positions near the fountain and stables.

- Second-Floor Pathway: Provides a tactical vantage point for sniping and resource collection.
- Nodes:
 - Observation deck on the second floor for retrieving a sniper rifle.
 - Key access points to enter the castle interior from either the courtyard or second-floor pathway.
- Paths:
 - Courtyard Route: Combat-heavy, with patrol enemies and mid-range combat engagements.
 - Second-Floor Route: Sniping opportunities with minimal enemy resistance.
- Edges:
 - The castle walls and broken-down stables define the play area and guide players toward the main entrance of the castle's interior.
- **Section 3: Maze and Cathedral**
 - Landmarks:
 - Maze Area: Features ruined garden pathways, small alcoves, and hidden supplies.
 - Cathedral: A grand interior with towering ceilings and an ominous central altar.
 - Regions:
 - Maze: Light combat with small enemy ambushes; hidden supplies are in dead-end paths opposite the correct route.
 - Cathedral Hall: A single-boss arena where the player faces the final enemy.
 - Nodes:
 - Supplies in the maze's incorrect routes for resource replenishment.
 - Boss fight area with environmental covers like pillars and pews.
 - Paths:
 - Maze Path: Simple navigation with minimal challenge and occasional enemy encounters.
 - Cathedral Path: A linear progression into the boss fight.
 - Edges:
 - Enclosed maze boundaries funnel players through the designated routes.
 - The cathedral hall is sealed until the boss is defeated or the item is stolen.

Gameplay Program

- **Section 1: Ruined Landfield**
 - Enemies: 5–7 enemies distributed across the three paths (middle, right, and left), focusing on varied encounters:
 - Right Path: Moderate combat with clustered enemies.
 - Left Path: Minimal combat, 1–2 enemies guarding supplies.
 - Pickups:
 - Right Path: Ammo, health, a shotgun.
 - Left Path: Limited resources in the enemy-guarded stash.

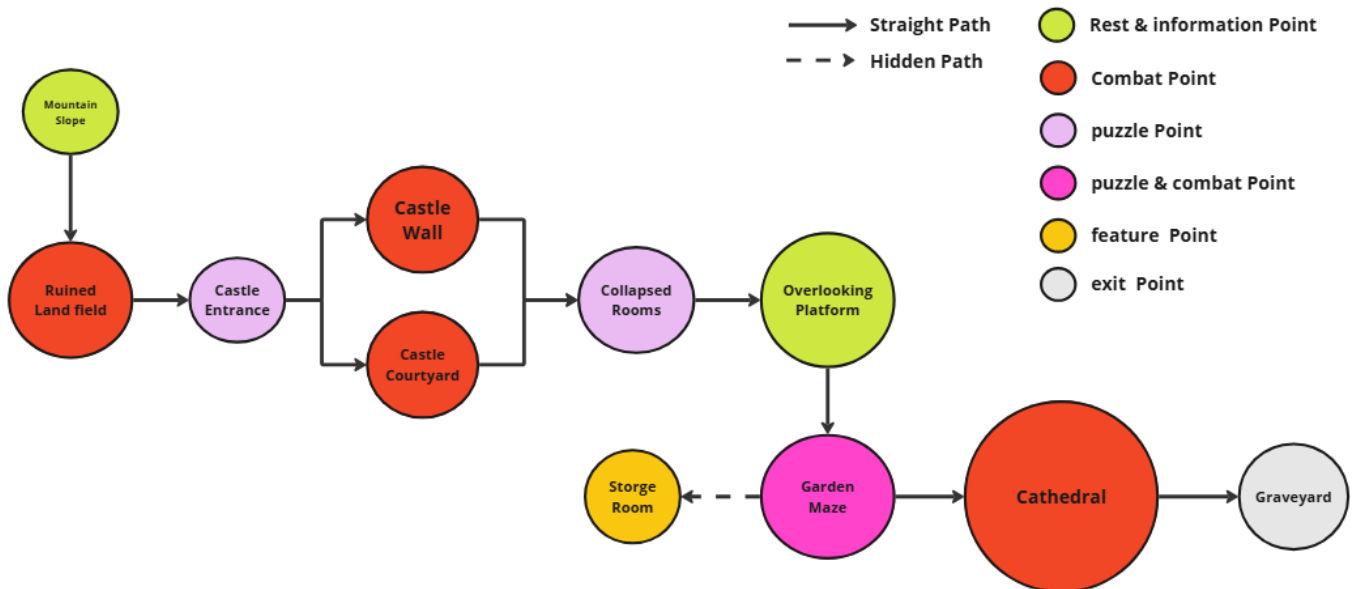

- Middle Section: Small ammo and health pickups.
- Spawn Points: Enemies rest or patrol visibly, positioned for direct encounters or ambush opportunities.
- **Section 2: Inside the Castle**
 - Enemies: 8–10 patrolling enemies in the courtyard and small defensive groups on the second floor.
- Pickups:
 - Courtyard: Scattered ammo and health.
 - Second Floor: A sniper rifle and limited resources.
- Spawn Points:
 - Courtyard: Stationary guards around the fountain and stables.
 - Second Floor: Patrol enemies guarding the observation deck.
- **Section 3: Maze and Cathedral**
 - Maze:
 - Enemies: 2–3 enemies in hidden ambush positions.
 - Pickups: Supplies in dead-end paths (ammo, health).
- Cathedral:
 - Enemies: 1 boss enemy with unique attack patterns.
 - Pickups: Limited health and ammo available during the boss fight.
 - Objective: Either defeat the boss or stealthily retrieve the mission item to escape.
